

CERTIFICATE OF ACHIEVEMENT

ANAIS 2025 – Ideathon

This is to certify that the team

DEKHO: Real-Time Monocular Navigation System

*Team members: Ankit Chimariya, Aryan Daga, Himani Bansal Agrawal, Kiran Khatri, Nishan Bhurtel,
Prabuddha Sinha, Sagar Giri, Samyak Sanghvi, Shristi Bastola and Swarnima Khadka*

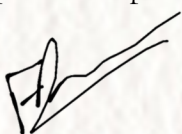

has been awarded **Winner** at the ANAIS 2025 Ideathon.

The team developed an innovative solution for safe, real-time navigation for visually impaired individuals, using standard monocular (phone) cameras without relying on external sensors. Their approach addresses a global challenge affecting ~250 million people, prioritising accessibility, scalability, and software-driven perception over hardware-heavy solutions.

This recognition celebrates the team's creativity, technical insight, and commitment to responsible AI innovation, transforming advanced AI concepts into a practical, impactful, and inclusive application.
